POOL**

AQUA SCULPT & TONE

Water's resistance provides the perfect opportunity for strength and conditioning exercises. Not only will this class help to reshape your body while improving strength, balance and flexibility, it provides a low impact, supportive environment. Thanks to water's impact on gravity, it creates the ability for you to move safely through large ranges of motion, which improves function.

H2O FIT

Water is a wonderful environment for exercise. This class provides the healthful benefits of cardio and strength exercises while reducing the impact experienced on land.

H2O HIIT

This high-energy aqua class incorporates timed intervals of exercise and recovery. The exercises can be done at your own pace. All fitness levels are welcome.

NEURO AQUA CHALLENGE

Exercising in the water offers two important benefits with Parkinson's. The buoyant properties of water eases the force of gravity and stress on the joints. It helps to support balance which can lessen the risk and fear of falling. You experience resistance when moving through water which engages the muscles. The combination of resistance and buoyancy creates a safety net for trying larger and more sustained movement that helps to build strength and maintain flexibility.

WATER WARRIOR

Dive into a high-energy aquatic workout like no other with our Water Warrior aqua fitness class! This dynamic and exhilarating class is designed to challenge your strength, endurance, and agility while providing a fun and refreshing workout experience in the water.

***Aqua Classes are limited to 25 participants.*
